

**Sponsorship Prospectus**  
**Princeton Quantitative Traders**  
16 March 2025

This document contains information on the various options to sponsor the Princeton Quantitative Traders Club for 2025. Princeton Quantitative Traders (PQT) is Princeton's premier quantitative finance group consisting of the brightest Princeton (undergraduate and graduate) students who are interested in quantitative finance. We are formally recognized by Princeton's Office of the Dean of Undergraduate Students as an undergraduate student organization.

PQT is uniquely positioned to offer exceptional students opportunities to remain **consistently engaged in quantitative finance** through **weekly educational sessions or hands-on projects**. We also want to introduce talented students from all backgrounds to quantitative finance as a potential career path.

As of Mar 2025, we currently have over **127 members** and are growing rapidly. We would appreciate your support in growing this club and providing more educational opportunities to our members and the broader Princeton community. In addition to weekly club events, we plan to organize the **inaugural Princeton Trading Competition in Fall 2025**.

We are very open to discussion of these options if there are any specific circumstances, requests, or ideas you would like to discuss. We look forward to working with you!

Please do not hesitate to contact us at [pqt@princeton.edu](mailto:pqt@princeton.edu) or [jerryhan@princeton.edu](mailto:jerryhan@princeton.edu) with any questions or for further information.
